AITA 2025

ARTIFICIAL INTELLIGENCE TOOLS & APPLICATIONS

A Workshop for Academicians and Industry Professionals

29th March 2025, 09:30 HRS to 17:00 HRS at ,
Address: INSTITUTION OF ENGINEERS, SACHIVALAYA MARG, UNIT 4, BBSR-7510

Workshop on AI Tools & Applications for Everyday Use

Join us for an engaging workshop on Artificial Intelligence (AI) from an end-user perspective, designed specifically for academicians, industry professionals, and beginners in AI. This session is perfect for those who want to explore AI tools and applications in their daily work—without needing coding or research expertise.
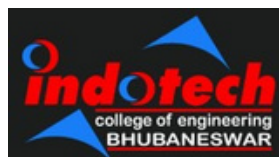

Our focus is on practical, real-world AI applications that can simplify tasks, enhance productivity, and unlock new possibilities. We have invited expert speakers to demonstrate AI-powered solutions in a simple, hands-on, and easy-to-understand manner.

◆ **Key Topics Covered:**

AI for Content Creation – Instantly generate blog posts, reports, and presentations

AI-Powered Image & Poster Generators – Create stunning visuals without design skills

Website Development with AI – Build professional websites effortlessly

AI in Education & Research – Automate data analysis, summarization, and citations

AI for Business & Productivity – Automate emails, reports, and workflow management

AI-Powered Chatbots & Virtual Assistants – Enhance communication and customer service

Speech-to-Text & AI-Based Transcription – Convert audio to text quickly and accurately

AI for Social Media Management – Automate content creation, scheduling, and engagement

Online Registration at www.aitasummit.com (Once you have registered, you will receive a confirmation email and whatsapp message.)

◆ Why Attend?

✓ No prior AI knowledge required – perfect for beginners

✓ Hands-on demonstrations of real-world AI tool

✓ Learn how AI can make your work easier, faster and more efficient

Whether you're an educator, researcher, business professional, or simply curious about AI, this workshop will equip you with practical AI skills that you can apply immediately.

Don't miss this opportunity to explore the power of AI and transform the way you work! 🚀
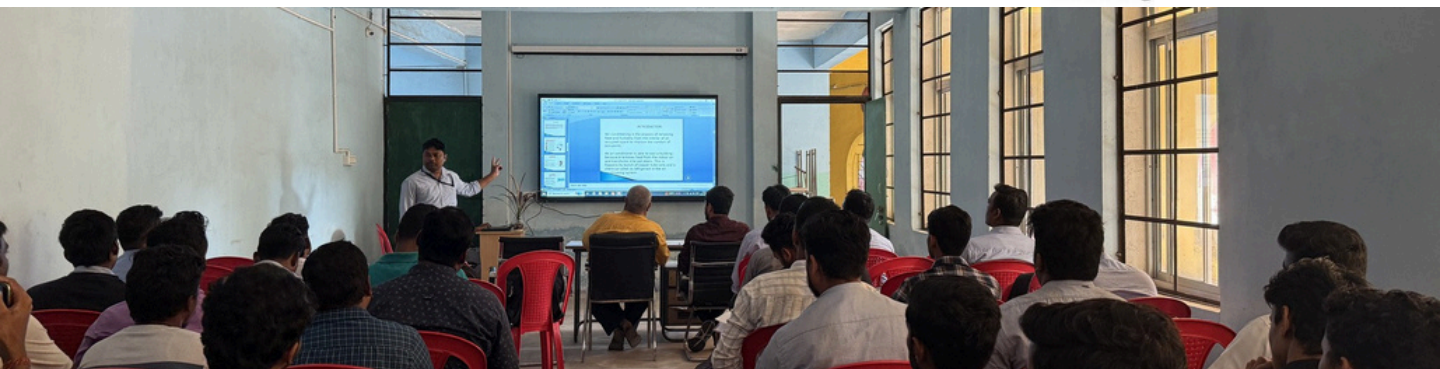

Mission

The mission of this workshop is to empower professionals, academicians, and beginners with practical knowledge of AI-powered tools and applications that can enhance productivity, creativity, and efficiency in daily tasks. We aim to bridge the gap between AI technology and real-world applications, making AI accessible and easy to use from individuals from diverse backgrounds without requiring programming experts.

Vision

Our vision is to create a future where AI is seamlessly integrated into everyday work, helping professionals across various fields harness its potential to simplify tasks, boost innovation, and drive success.
